

DESI ORANGE PILL

India ke liye Pehla Bitcoin Guide

Free beginner starter — money, Bitcoin, wallets,
safe buying, scams, aur aage kahan seekhein.

Open education · No hype · Indian learners ke liye

Created by Yasbir Singh · <https://desiorangepill.com>

Financial advice nahi. Sirf education. Laws aur tax qualified professional se check karo.

1. Welcome

Bitcoin shor-sharaba lag sakta hai: prices, scams, apps, aur alag-alag raayein. Yeh chhota guide India ke un logon ke liye shant shuruaat hai jo Bitcoin samajhna chahte hain — trading tips ya “ameer bano” promises nahi.

Aap seekhenge:

- Bitcoin se pehle money kyun matter karta hai
- Bitcoin kya hai (simple language mein)
- Wallets aur self-custody kaise kaam karte hain
- India mein carefully buy ke baare mein sochna
- Common scams se bachna
- Desi Orange Pill par free lessons kahan continue karein

Guide kaise use karein

Ek baar padho. Phir free course online kholo — English, Hindi, aur major Indian languages. Koi bhi level kabhi bhi khol sakte ho.

Online seekhna shuru karo: <https://desiorangepill.com/hl/courses/>

2. Pehle money

Bitcoin se pehle money samjho. Achha money usually scarce, durable, divisible, portable, aur hard to fake hota hai. Log shells, metals, coins, paper, aur ab digital bank balances use karte rahe.

Inflation (simple)

Jab goods-services se tez currency banti hai, har unit time ke saath kam kharid paati hai. FD aur cash daily life ke liye zaroori hain — lekin long-term purchasing power kai families ke liye sawal hai.

Payments vs savings

India mein UPI ne payments easy kiye. Yeh us long-term savings jaisa nahi jise aap fully control karte ho. Bitcoin aksar savings ke liye digital scarce money ke roop mein discuss hota hai — daily UPI spending ki jagah nahi.

3. Bitcoin kya hai?

Bitcoin open-source digital money hai jiski supply 21 million tak limited hai. Koi company “owner” nahi. Global network public rules se transactions process karta hai aur shared ledger (blockchain) rakhta hai.

- Internet aur Bitcoin address wale kisi ko bhi value bhej sakte ho.
- Rules se zyada koi print nahi kar sakta.
- Agar keys aapke paas hain, funds aur security aap control karte ho.

Company stock nahi

Bitcoin kisi firm ki equity nahi. Koi CEO bail-out nahi karega. Freedom ke saath zimmedari: backups, scams, carefully seekhna.

4. Keys, wallets, self-custody

Keys

Private key (ya 12/24-word seed) aapke bitcoin control karti hai. Public address receive ke liye hai. Agar kisi ke paas aapka seed hai, woh funds le sakta hai. Kabhi share mat karo. Random websites par mat likho.

Wallet

Wallet software (ya hardware) hai jo keys manage karta hai aur send/receive help karta hai. BlueWallet common mobile starter hai. Sirf official app stores se download karo.

Exchange vs self-custody

- Exchange: buy convenient; woh aapke liye bitcoin hold karte hain (custodial).
- Self-custody: keys aapke paas — “not your keys, not your coins.”
Kai log trusted platform par kharidte hain, phir long-term savings ke liye apni wallet mein withdraw karte hain.

Safety rule

Seed ka screenshot kabhi mat lo. Paper par likho, offline safe rakho. Pehle chhoti amount se test karo.

5. India mein Bitcoin (bada picture)

2020 mein Supreme Court ne RBI banking ban hataya — individuals ke liye buy/hold legal hai. Bitcoin legal tender nahi — shops rupees ki tarah accept karne ko majboor nahi.

Tax rules badalte hain. Crypto gains par aksar high tax aur kuch transfers par TDS raha hai. Buy date aur INR price record rakho. Yeh education hai, tax advice nahi — qualified CA se baat karo.

Carefully buy

- Known platforms use karo; social media “agents” se bacho.
- Strong account security (unique password, 2FA).
- Ready ho to apni wallet mein withdraw — address carefully verify karo.
- Seekhte hue chhoti amount se start karo.

6. Scams se bacho

- “Double bitcoin” ya guaranteed returns — hamesha scam.
- Fake wallet apps / phishing jo seed maange.
- OTP / SIM-swap aur fake customer-care.
- Unsolicited DMs jo “fund recovery” ka wada karein.
- Jobs jo pehle crypto bhejne ko kahein.

Golden rule

Koi legitimate person aapka seed ya OTP nahi mangta. Pressure ho to ruko aur trusted person se offline verify karo.

7. Next steps

Online suggested path (koi bhi level kabhi bhi):

- Levels 1–5 · Money samjho (India context)
 - Levels 6–12 · Bitcoin kaise kaam karta hai
 - Levels 13–16 · Practice: wallets, scams, privacy, India use
- Optional how-tos: BlueWallet setup, carefully buy, self-custody basics.
